

Chay Ya Nepal

PROJECT REPORT 2018

LET'S DO IT

WWW.CHAYYANEPAL.ORG

Message from Executive Director

Dear friends and supporters of Chay Ya,

It is our great pleasure to share about Chay Ya's program and achievements through this Project Report. 2015 to 2018 were incredible and exciting years for us and consisted of several encouraging milestones. This Project Report captures a summary of major projects and achievement with details since 2015. We believe that a universal education system and universal health care services are basic and necessary driving forces for social and economic development of societies.

Chay Ya started to work for mountain communities by identifying their needs and developing viable economic and social solutions. It focuses to establish basic infrastructures in education and health sectors to provide services to marginalized and disadvantaged communities in remote areas of Nepal where there is a lack of sufficient bridging between local and government institutions. Therefore, we try to build good cooperation with recently formed local government to establish and operate basic infrastructure for education and health, which are prerequisites to development and provide smooth services to all citizens.

Chay Ya has broadened its reach and its projects are located from very remote mountainous terrain to Terai of Nepal which lack basic facilities. In its infancy, Chay Ya worked in three districts. Now it has widened its working space and reached 12 districts all over Nepal. Besides contribution to education and health, Chay Ya is always ready to provide quick emergency humanitarian relief during disasters. In 2017 our team mobilized distributing immediate relief to flood victims in Terai triggered by heavy rainfall during the monsoon season. This past year we have particularly focused

on work in the fields of education and health services forging partnerships with local stakeholders. We partnered directly with government institutions for making these services more sustainable and worthy and to increase ownership of the project among local bodies. We strongly believe that this has created a strong foundation to cooperate with local institutions and make a positive change in local communities together.

We realize that we have played an important role to increase access to education and health services to marginalized communities lacking such basic systems. We would like to express our continued gratitude to all concerned institutions and partners for supporting and helping us to help communities and make visible changes for the people and our generation. We would not be able to work and fulfill our goal and objectives without your support. Our volunteers have worked very hard in the education and health sectors. Chay Ya is very grateful to them as well.

Sincerely,
Kamal Thapa
Executive Director | Chay Ya Nepal

Introduction

“Chay Ya” in the Bhote Lama dialect means, “Let’s do it”. Founded in 2015, Chay Ya is a non-profit organization, working closely with mountain communities.

Chay Ya in its recent beginnings has been able to make some major and rapid impact in the communities in 12 districts of Nepal namely Gorkha, Rasuwa, Sindhupalchok, Kailali, Humla, Mugu, Dolpa, Parsa, Rautahat, Dang, Solukhumbu and Banke. It’s main focus is on sustainable construction and operation of infrastructure in sectors of education, health care and environmental conservation to emergency humanitarian relief. It works in the most economically marginalized and geographically deprived communities in Nepal to help close the vast infrastructure gap in such communities.

The interesting story behind the genesis of Chay Ya was sparked by the fortuitous meeting of two individuals, Kamal Thapa from Nepal and Sabine Klotz from Austria in the hills of Rasuwa in the year 2007. Kamal was there to shoot a documentary on perceptions held by indigenous communities on the Constitution making process going on then, while Sabine was there to enjoy the pleasures of trekking in Nepal. While there, both realized the lack of access to basic services like education, health care, water and sanitation. They made a resolution to bridge the gap they saw, so as to help improve the communities’ access to basic services. With the establishment of Chay Ya Austria, the efforts initiated in 2009. Chay Ya along with Youth Network for Social and Environmental development (YONSED) organized a Free Health Camp in Rasuwa, Gorkha and Dolpa catering to meet the healthcare needs of 1100 residents of Rasuwa, 4750 residents of Gorkha, and 950 residents of Dolpa.

Chay Ya with communities and local governments build infrastructures, to ensure deprived citizens and communities receive services entitled to by the state. Hence, the ultimate goal is to match the needs of local citizens and communities with the government’s capacity to deliver by helping the government build and operate local infrastructure and institutions. By technically assisting local governments to help build much needed infrastructures, Chay Ya ensures that government institutions are more accountable and responsive to the needs of their citizens. Hopefully this will achieve twin results of enhancing local public service delivery, ensuring decentralization and triggering more local political participation with sense of accountability towards government institutions.

The year Chay Ya Nepal was established, Nepal was devastated by a 7.8 magnitude earthquake on 25 April 2015. The already floundering ability of the government to deliver public services was further tested. We rapidly sprang into action and mobilized ourselves and our partners to help provide rapid humanitarian relief. We did not allow the tragedy to distract us from our goals to create sustainable infrastructure and accountable institutions at the local levels. The testimony to this are the multifarious projects we accomplished within a relatively short span of time.

THE EXECUTIVE BOARD

The Executive Board of Chay Ya, Nepal consists of 9 members, all of whom are committed to fulfilling the vision of Chay Ya and entirely dedicated to ensuring that projects of Chay Ya succeed and have the desired social outcomes of enhancing the quality of life for project targeted individuals and communities. Executive board is as follows:

Sristi Silwal
Chairperson

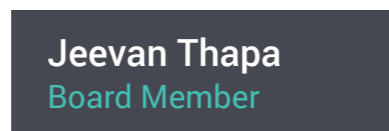

Santosh Silwal

OBJECTIVES OF CHAY YA NEPAL

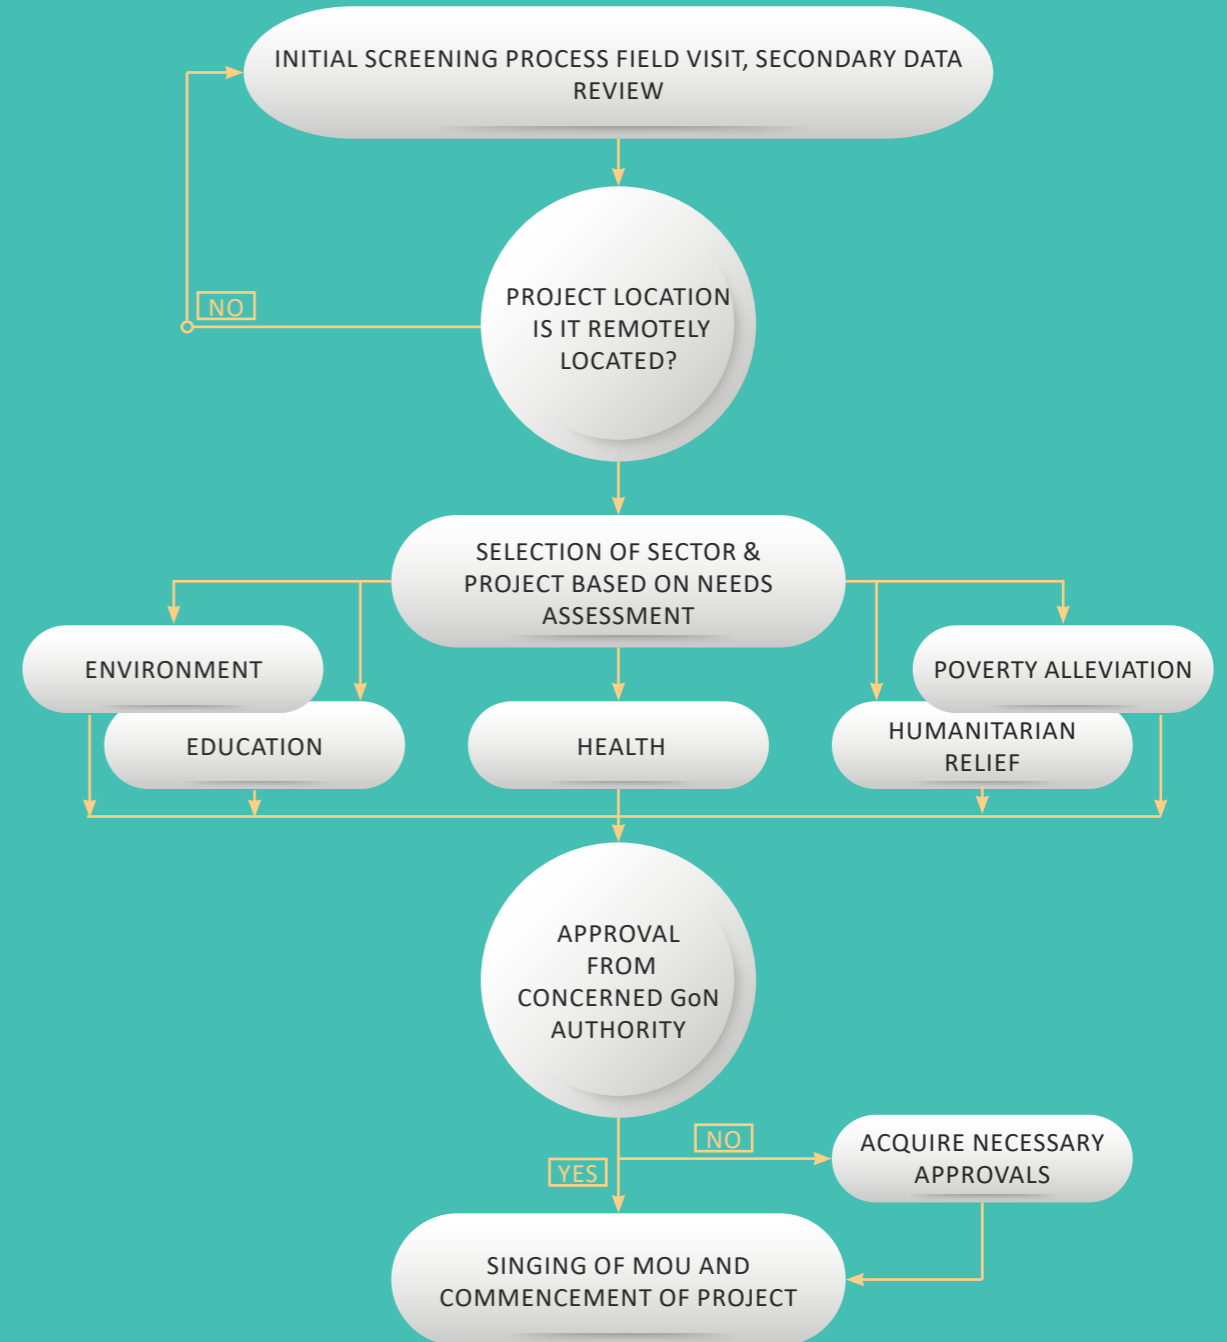

The following are the set of objectives through which Chay Ya Nepal aims to achieve its mission:

- Develop education and health services with the necessary infrastructure support
- Conduct research on emerging socio-economic and environmental problems and develop effective knowledge and understanding to address the problems
- Organize awareness and relief distribution programs to respond to sensitive disaster aid requirements
- Organize capacity building programs for children, women and marginalized groups
- Assist, facilitate and support poor, vulnerable and disadvantaged people on building their livelihoods

PROJECT IN EDUCATION SECTOR

14

BUILT SCHOOLS

77

Classrooms

1647

STUDENTS BENEFITED

Shree Buddha Primary School

Partner Developer: Chay Ya Austria, District Education Office, Gorkha, school Management Committee

Location: Tsum Nubri Rural Municipality, Ward 7, Lar Village, Gorkha

Overview

Project Capacity: Caters to 36 students including 17 males and 19 females, with classes ranging from grade 1 to 5, 7 teachers and 1 support services staff

Funded By: Chay Ya Austria, Lopoca Ltd.

Project Features:

Reconstruction of 5 classrooms; renovation of the library and office premises; construction of a hostel space and toilet facilities; Introduction of a fully supplied sports curriculum; recruitment of 3 teachers; annual training of teachers with periodic involvement of national and international volunteers from Chay Ya.

Construction Modality: Use of dry stone masonry with wooden tie beams that are seismic bands, which helps make the building earthquake resistant

Support Period: 2014 to 2018

Benefits to local community and Nepal

1. The school provides safe and a permanent learning space not just for the 36 students currently enrolled there but also the future generations.
2. The school provides employment to 8 individuals, which adds to local capacity building in the field of education.
3. The introduction of a sports curriculum enhanced student enrollment in the school, reduced student dropout rate and was critical in acting as a relief from the stress for children who experienced the tragic earthquake of 25 April 2015.
4. The construction of a toilet within the school premises increased the enrollment of girl students in the school.

Shree Chumling Primary School

Partner Developer: Earth C-Air, Chay Ya Austria, District Education Office, Gorkha, school Management Committee

Location: Tsum Nubri Rural Municipality, Ward 6 , Chumchet Village, Gorkha

Overview

Project Capacity: Caters to 20 students with classes ranging from grade 1 to 3 , 2 teachers and 1 support services staff.

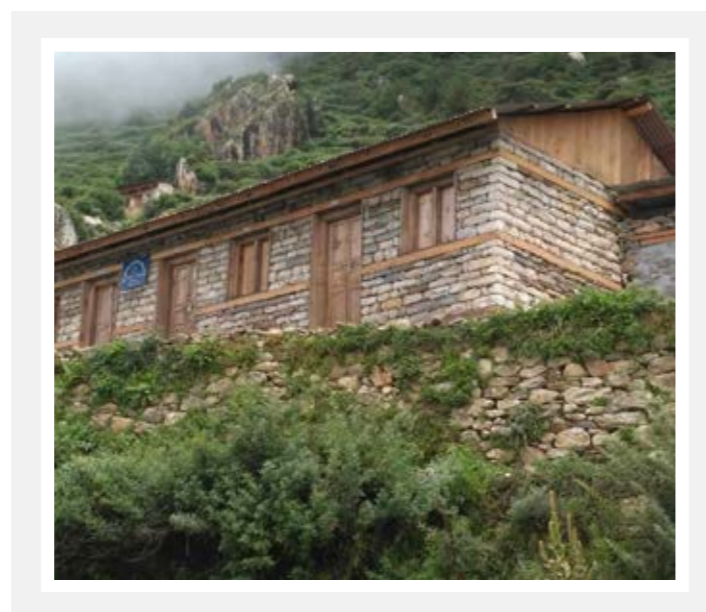

Funded By: Earth C-Air

Project Features: Reconstruction of 3 classrooms a toilet and a library and provision of materials for it, introduction of a sports curriculum, recruitment of 2 teachers

Construction Modality: Use of dry stone masonry with wooden tie beams that are seismic bands, which helps make the building earthquake resistant

Support Period: 2015 to 2018

Current Status: Successful Reconstruction and in Operation

Benefits to local community and Nepal

1. The school provides safe and a permanent learning space for 20 students currently enrolled there but also the future generation.
2. The school provides employment to 4 individuals, which adds to local capacity building in the field of education.
3. The introduction of a sports curriculum enhanced student enrolment in the school reduced student dropout rate and was critical in acting as a relief from the stress for children who experienced the tragic Earthquake of 25 April 2015.
4. The construction of a toilet within the school premises increased the enrolment of girl students in the school.

Shree Sipchet Primary School

Partner Developer: SOS Nepal, Himalayan Peace Education Foundation , District Education Office, Gorkha, school Management Committee

Location: Tsum Nubri Rural Municipality, Ward 6, Sipchet Village, Gorkha

Overview

Project Capacity: Caters to 33 students including 14 boys and 16 girls with classes ranging from grade 1 to 4 , 3 teachers and 1 support service staff

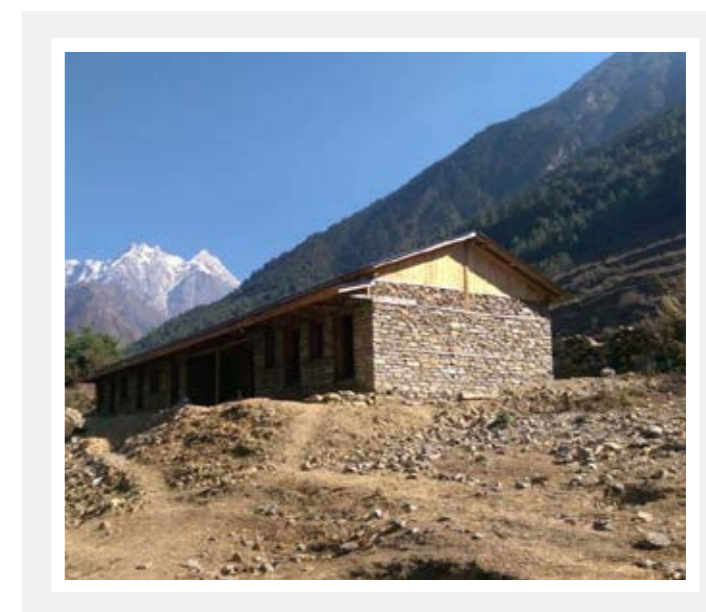

Funded By: SoS Nepal via Himalayan Peace Education Foundation

Project Features: Reconstruction of 6 classrooms a toilet and a library and provision of materials for it, Introduction of a sports curriculum, recruitment of 1 sports Instructor

Construction Modality: Use of dry stone masonry with wooden tie beams that are seismic bands, which helps make the building earthquake resistant

Support Period: 2016 to 2017

Current Status: Successful reconstruction and in operation

Benefits to local community and Nepal

1. The school provides safe and a permanent learning space for 33 students currently enrolled there but also the future generation.
2. The school provides employment to 3 individuals, which adds to local capacity building in the field of education.
3. The introduction of a sports curriculum enhanced student enrolment in the school, reduced student dropout rate and was critical in acting as a relief from the stress for children who experienced the Great Earthquake of 25 April 2015.
4. The construction of a toilet within the school premises increased the enrolment of girl students in the school.

Shree Shiva Primary School

Partner Developer: Earth C-Air , Chay Ya Austria, District Education Office, Gorkha, school Management Committee

Location: Dharche Rural Municipality, Ward 2 , Kerauja Besi Village, Gorkha

Overview

Project Capacity: Caters to 53 students including 22 boys and 31 girls with classes ranging from grade 1 to 5 , 4 teachers and 1 support services staff

Funded By: Earth C-Air

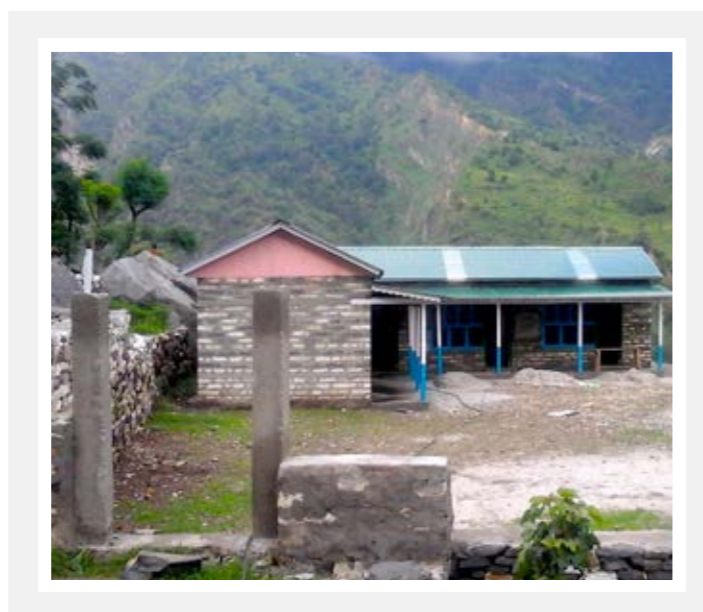

Project Features: Reconstruction of 5 classrooms two toilets and a library and provision of materials for it, recruitment of 1 primary school teacher

Construction Modality: Use of stone and cement mortar masonry

Support Period: 2015 to 2016

Current Status:

Successful Reconstruction and in Operation

Benefits to local community and Nepal

1. The school provides safe and a permanent learning space for 53 students currently enrolled there but also the future generations.
2. The school provides employment to 5 individuals, which adds to local capacity building in the field of education.
3. The construction of a toilet within the school premises increased the enrolment of girl students in the school.

Shree Ganga Jamuna Lower Secondary School

Partner Developer: Chay Ya Austria, LOPOCA Ltd, Integrated Rural development Centre(IRDC), District Education Office, Gorkha, school Management Committee

Location: Dharche Rural Municipality, Ward 7 , Bhirkuna Village, Gorkha

Overview

Project Capacity: Caters to 202 students including 103 boys and 99 girls with classes ranging from early childhood development (ECD) to grade 8 , 8 teachers and 1 support service staff

Funded by: LOPOCA Ltd, sub-contracted to integrated rural development centre, a local NGO for implementation

Project Features:

Reconstruction of 2 classrooms 2 toilets and urinal made provision of materials for the existing library

Construction Modality:

Use of stone and cement mortar masonry.

Support Period: 2016 to 2017

Current Status:

Successful reconstruction and in operation

Benefits to local community and Nepal

1. The school provides safe and a permanent learning space for 202 students currently enrolled there and for the future generations.
2. The school provides employment to 9 individuals, which adds to local capacity building in the field of education.
3. The construction of a toilet within the school premises increased the enrolment of girl students in the school.

Shree Balkalyan Primary School

Partner Developer: Earth C-Air, District Education Office, Gorkha, school Management Committee

Location: Arughat Rural Municipality, Ward 2 , Patalekhark Village, Gorkha

Overview

Project Capacity: Caters to 43 students including 20 boys and 23 girls with classes ranging from early childhood development (ECD) to grade 5 , 3 teachers and 1 support service staff

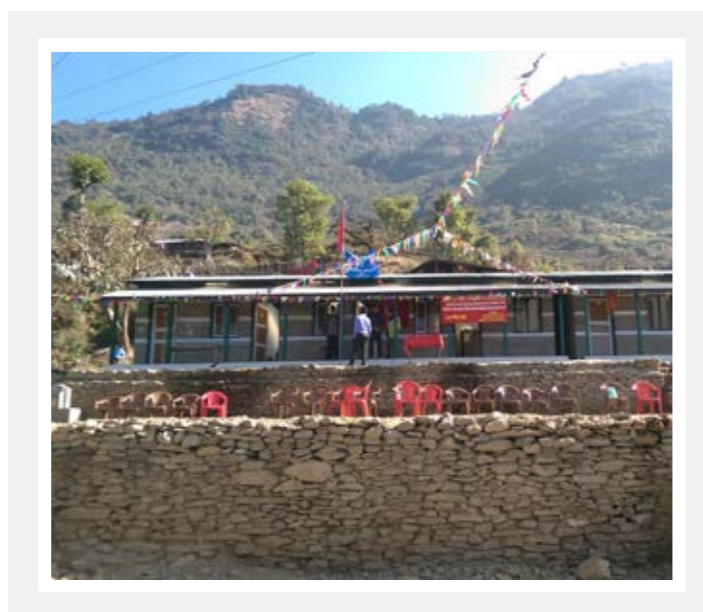

Funded By: Earth C-Air

Project Features:
Reconstruction of 6 classrooms 2 toilets

Construction Modality:
Use of stone and cement mortar masonry

Support Period:
2017 and 2018

Current Status:
Successful Reconstruction and in Operation

Benefits to local community and Nepal

1. The school provides safe and a permanent learning space for 43 students currently 24 enrolled there and for the future generations.
2. The school provides employment to 4 individuals, which adds to local capacity building in the field of education.
3. The ongoing construction of a toilet within the school premises.

Shree Ichchhya Lower Secondary School

Partner Developer: Earth C-Air, District Education Office, Gorkha, school Management Committee

Location: Dharche Rural Municipality, Ward 1, Hulchowk Village, Gorkha

Overview

Project Capacity: Caters to 250 students including 175 boys and 75 girls with classes ranging from early childhood development (ECD) to grade 8 , 6 teachers and 1 support services staff.

Funded by: Earth C-Air

Project Features:
Reconstruction of 8 classrooms, 2 bathrooms, 2 toilets, urinal, provision of materials and furniture for the existing library

Construction Modality:
Use of stone and cement mortar masonry.

Support Period:
2015 and 2018

Current Status:
Successful reconstruction and in operation

Benefits to local community and Nepal

1. The school provides safe and a permanent learning space for 250 students currently enrolled there and for the future generation.
2. The school provides employment to 9 individuals, which adds to local capacity building in the field of education.

Shree Bhimsen Lower Secondary School

Partner Developer: Chay Ya Austria ,Lopoca Ltd., Langtang Area Conservation Concern Society (LACCoS), National Reconstruction Authority, District Education Office, Rasuwa, school Management Committee

Location: Gosaikunda Rural Municipality, Ward 5 , Thulo Bharku Village, Rasuwa

Overview

Project Capacity:

Caters to 90 students including 47 boys and 43 girls with classes ranging from early childhood development (ECD) to 8 , 8 teachers and 1 support services staff

Funded by: LOPOCA Ltd and subcontracted to LACCoS for implementation

Project Features:

Reconstruction of 3 classrooms

Construction Modality:

Use of Reinforced Cement Concrete (RCC) Technology

Support Period:

2016 to 2018

Current Status:

Successful Reconstruction and in Operation

Benefits to local community and Nepal

1. The school provides safe and a permanent learning space for 90 students currently enrolled there and for the future generation.
2. The school provides employment to 9 individuals, which adds to local capacity building in the field of education.

Shree Saraswati Lower Secondary School

Partner Developer: Land Vorarlberg, Chay Ya Austria, Roots for Life, National Reconstruction Authority, District Education Office, Rasuwa, LACCoS, school Management Committee

Location: Gosaikunda Rural Municipality, Ward 6 , Thade Village, Rasuwa

Overview

Project Capacity:

Caters to 83 students including 47 boys and 36 girls with classes ranging from early childhood development (ECD) to grade 8 , 8 teachers, and 1 support services staff.

Funded by:

Land Vorarlberg, Austria, Chay Ya Austria, Crossing Boarder, Roots for Life

Project Features:

Reconstruction of 8 classrooms and 2 toilets and urinal

Construction Modality:

Use of Stone and Cement Mortar Masonry

Support Period:

2016 to 2018

Current Status:

Successful reconstruction and in operation

Benefits to local community and Nepal

1. The school provides safe and a permanent learning space for 83 students currently enrolled there and for the future generations.
2. The school provides employment to 7 individuals, which adds to local capacity building in the field of education.
3. The ongoing construction of a toilet within the school premises increased the enrolment of girl students in the school.

Shree Grang Primary School

Partner Developer: Chay Ya Austria, Langtang Area Conservation Concern Society (LACCoS), National Reconstruction Authority, District Education Office, Rasuwa, school Management Committee

Location: Kalikasthan Rural Municipality, Ward 1, Grang Village, Rasuwa

Overview

Project Capacity:

Caters to 162 students including 68 boys and 94 girls with classes ranging from grade 1 to 5, 5 teachers and 1 support services staff

Funded By: LOPOCA Ltd and subcontracted to LACCoS for implementation

Project Features:

Reconstruction of 4 classrooms

Construction Modality:

Use of Reinforced Cement Concrete (RCC) Technology

Support Period:

2017 and ongoing

Current Status:

Ongoing

Benefits to local community and Nepal

1. The school provides safe and a permanent learning space for 162 students currently enrolled there and for the future generation.
2. The school provides employment to 9 individuals, which adds to local capacity building in the field of education.

Shree Ganesh Higher Secondary School, Sindhupalchowk

Partner Developer: Chay Ya Austria, Red Charity, Fair Styria, International 88 with Tri Clay via IDV, District Education Office, Sindhupalchok, school Management Committee, National Reconstruction Authority

Location: Sunkoshi Rural Municipality, Ward 4, Yamunadanda Village, Sindhupalchok

Overview

Project Capacity:

Caters to 257 students including 138 boys and 119 girls and 1 support service staff

Funded by: Red Charity, Chay Ya Austria, Fair Styria and International 88

Project Features:

Reconstruction of 8 classrooms and provision of materials to the existing library

Construction Modality:

Use of reinforced Cement Concrete (RCC) technology and Earth Brick

Support Period:

2016 to 2018

Current Status:

Successful reconstruction and in operation

Benefits to local community and Nepal

1. The school provides safe and a permanent learning space for 257 students currently enrolled there and for the future generations.
2. The school provides employment to 15 individuals, which adds to local capacity building in the field of education.

Sudurpachhim Inclusive School (SUPA), Attaria, Kailali

Partner Developer: Chay Ya Austria, Chay Ya USA, Force Nepal, District Education Office, school Management Committee, SUPA school Management Community

Location: Godavari Municipality, Ward 2, Attaria, Kailali

Overview

Project Capacity:

Caters specifically to 44 students with disability including 22 boys and 22 girls. Classes range from early childhood development (ECD) to grade 5, with 3 teachers and 2 support services staff.

Funded By: Chay Ya Austria, Chay Ya USA, LUSH Ltd, Bambuschule, Schöck Foundation and Godavari Municipality

Project Features:

Construction of Kitchen, 2 accessible Bathrooms and toilets, and construction of a garden to promote vegetable gardening practices. Furnishing the hostel space, classrooms, library, sports materials, solar water heating system, washing machine for the students, a biogas system, wheelchairs for students, recruitment of 3 teachers and 2 support services staff after renovation of the school building which was destroyed by wind storm in 2018.

Benefits to local community and Nepal

1. The school provides safe and a permanent learning space for 44 students with disability currently enrolled there and for the future generations.
2. The school provides employment to 5 individuals, which adds to local capacity building in the field of education.

Construction Modality:

Use of Reinforced Cement Concrete (RCC) Technology

Support Period:

2016 and ongoing

Shree Manjushree Secondary School, Gorkha

Partner Developer: Earth C-Air, District Education Office, Gorkha, school Management Committee

Location: Dharche Rural Municipality, Ward 6, Kashi Gaon, Gorkha

Overview

Project Capacity:

To cater to 396 students with classes ranging from early childhood development (ECD) to grade 10 with 12 teachers and 3 support services staff.

Funded by: Earth C-Air

Project Features:

Reconstruction of 6 classrooms

Construction Modality:

Use of early

Support Period:

2017 to 2018

Current Status:

Successful reconstruction and in operation

Benefits to local community and Nepal

1. The school provides safe and a permanent learning space for 396 more students and for the future generations.
2. The school will provide employment to 12 teachers and 3 support services staff, which adds to local capacity building in the field of education.

Shree Chharka Bhot Primary School, Dolpa

Partner Developer: Chay Ya Austria, Chay Ya Switzerland, Dolpo Tomorrow and school Management Committee

Location: Chharka Tangsong Rural Municipality, Ward 1, Chharka, Dolpa

Overview

Project Capacity:

To cater to 60 students with classes ranging from early childhood development (ECD) to grade 3 with 3 teachers and 1 support services staff.

Funded By: Chay Ya Austria, Chay Ya Switzerland, Bambuschule and subcontracted to Dolpo Tomorrow

Project Features:

Provision of supplies to the exiting library and construction of 5 classrooms

Construction Modality:

Use of stone and mud mortar masonry

Support Period:

From 2019 to 2021

Current Status:

Ongoing

Benefits to local community and Nepal

1. The school will provide safe and a permanent learning space for 60 students and for the future generations.
2. The school will provide employment to 4 individuals, which adds to local capacity building in the field of education.

PROJECTS IN HEALTH SECTOR

4

Health CENTERS

44

Health CAMPS

4500

PATIENTS BENEFITING EVERY YEAR

Chay Ya Free Health Camps

Partner Developer: Chay Ya Austria and Earth C-Air, Volunteer Initiative and Scouts of Austria, Land Vorarlberg

Location: Gorkha, Rasuwa, Dolpa

Overview

Project Capacity: Catered to around 4750 individuals in Gorkha, 1100 individuals in Rasuwa and 950 individuals in Dolpa, Conducted 5 times in Gorkha, Once in Rasuwa and Once in Dolpa

Funded By: Volunteer Initiative and Scouts of Austria, Land Vorarlberg, (Government of Austria), Earth C-Air

Project Features: A general health camp with specialists who travel to the patients in their settings and provide services to general health problems at site and referral options to other ailments who need further treatment at specialized settings. The common conditions found were arthritis, acid peptic disease, urinary tract infections, worm infestations, dental caries and upper respiratory problems.

Support Period: 2009 to 2017

Current Status:
Successful Implementation

Benefits to local community and Nepal

1. The free health camps provided health care services to around 4750 individuals in Gorkha, 1,100 individuals in Rasuwa and 950 individuals in Dolpa making health care more inclusive.
2. The Project promoted personal hygiene practices changing individual approach towards preventive health care and helped reduce negative stereotypes against modern health care practices. This led to an improvement of the general quality of life of the communities.

Chhekampar Birthing Centre and Outreach Clinic

Partner Developer: Chay Ya Austria, Scouts of Austria, Medi Himal, Youth Network for Social and Environmental development (YONSED), District Public Health Office, Gorkha

Location: Tsum Nubri Rural Municipality, Ward 7, Lar Village, Gorkha

Overview

Project Capacity: It is an authorized 6 bedded Birthing centre and outreach clinic. It has capacity of three inpatient units with one bed each for delivery and emergency services. It is equipped with a pharmacy and powered by 2 health assistants and 1 support services staff.

Funded By: Chay Ya Austria, Chay Ya Austria, Scouts of Austria, Medi Himal, Land Vorarlberg - Austria

Project Features: Free health services through Outreach Clinics (ORC) in remote communities by birthing centre staff, provision of prenatal and postnatal healthcare, provision of family planning services, training on first aid and health, hygiene and sanitation to local communities with a special focus on mothers, provision of emergency care services

Support Period: 2015 to 2019

Current Status:
Successful implementation

Benefits to local community and Nepal

1. The Birthing Centre has so far provided health care services including First aid services and Emergency services to more than 3000 individuals which has dramatically improved the general quality of life of the local communities.
2. The provision of prenatal and postnatal health care services has led to a dramatic decrease in child and maternal mortality rates by approximately 50% in the local community with an increase in the number of local patients visiting the Birthing Center. This is an indicator that Chay Ya's Project has helped in eliminating local prejudices and various forms of false beliefs and superstitions the communities previously held against modern and improved health care services.

Palungtar Community Health Centre

Partner Developer: Chay Ya Austria, Red Charity, Palungtar Municipality, Gorkha

Location: Palungtar Municipality, Ward 5, Thanti Pokhari, Gorkha

Overview

Project Capacity:

Has 1 Emergency Ward, 1 general Ward with 5 beds, 1 Maternity Ward with 2 beds, 1 Pharmacy and powered by 5 Health staff

Funded by:

Red Charity and Palungtar Municipality, Gorkha

Project Features:

Free provision of prenatal and postnatal healthcare, provision of family planning services, training on first aid and health, hygiene and Sanitation to local communities with a special focus on mothers, provision of emergency care and services.

Construction Modality:

Use of Reinforced Concrete Cement (RCC) Technology with earth bricks

Support Period: 2017 to 2019

Current Status:

Ongoing

Benefits to local community and Nepal

1. The provision of prenatal and postnatal health care services has helped decrease child and maternal mortality rates and has helped ease delivery related issues for women at Palungtar which on average has annual delivery rate of 100 babies.
2. The presence of the Centre has enhanced the general quality of life of the local community.

Kharpunath Community Health Center

Partner Developer: Chay Ya Austria, Kharpunath Rural Municipality

Location: Kharpunath Rural Municipality - Ward 5, Anchu Bagar, Humla

Overview

Project Capacity:

Will have 6 beds, 2 nurses, 2 Health assistants and 1 support services staff.

Funded By: Chay Ya Austria, Kharpunath Rural Municipality

Project Features:

Free provision of prenatal and postnatal healthcare, provision of family planning services, training on first aid and health, hygiene and sanitation to local communities with a special focus on mothers, provision of emergency care and services.

Construction Modality:

Use of use of stone masonry with woodenframes

Support Period: 2018 to 2019

Current Status:

Successful implementation and in operation

Benefits to local community and Nepal

1. The Center will provide health care services including First aid services and Emergency services to more than 3,000 patients.
2. The provision of prenatal and postnatal health care services will lead to a decrease in child and maternal mortality rates and will help ease labor for women at Kharpunath.
3. The presence of the Centre will enhanced the general quality of life of the local community.

Mugum Karmarong Community Health Center

Partner Developer: Chay Ya Austria, Mugum Karmarong Rural Municipality and HIRYSDEC, Mugu

Location: Mugum Karmarong Rural Municipality - Ward 4, Riisa Bagar, Mugu

Overview

Project Capacity:

6 beds powered by 2 nurses, 2 health assistants and 1 support services staff

Funded By:

Karl Zünd Foundation and Mugu Karmarong Rural Municipality

Project Features:

Free provision of prenatal and postnatal healthcare, Provision of family planning services, training on first aid and health, hygiene and sanitation to local communities with a special focus on mothers, provision of emergency care and services, provision of pharmacy with free supply of medicine and equipment.

Construction Modality:

Use of stone cement with mortar masonry

Support Period: 2018 to 2019

Current Status:

Successful implementation and in operation

Benefits to local community and Nepal

1. The Centre will help provide health care services including First aid and Emergency services to more than 2,500 patients of the region.
2. The provision of prenatal and postnatal health care services will help decrease child and maternal mortality rates and ease labor for women at Kharpunath.
3. The provision of psychological counseling to generate awareness regarding the importance of mental health locally to help individuals suffering from mental health conditions and cope with them.
4. The presence of the centre will have enhanced the general quality of life of the local community.

WASH in Schools and Health Care Facilities

Partner Developer: UNICEF Nepal and Chay Ya Nepal

Location: Simkot Rural Municipality: Humla, Chhayanath Rara Municipality: Mugu and Thulibheri Municipality: Dolpa

Overview

Project Capacity:

Project Capacity: Water Sanitation and Hygiene (WASH) training at schools and health care facilities

Funded By: UNICEF Nepal and Chay Ya Austria

Project Features:

Total sanitation promotion campaigns, hardware support for upgrading WASH facilities at schools and health care facilities, WASH orientation programs at municipality, ward and school level

Support Period: 2018-2019

Current Status: Ongoing

Benefits to local community and Nepal

CONSTRAINTS / CHALLENGES

1.

Very remotely located project sites with window of only few months to work.

2.

Remote locations and unforgiving weather make timely project completion very challenging.

3.

Need for active engagement from municipality officials.

4.

Poor communication system makes information to and from field staff challenging

5.

Limited budget but very high demand from community makes it challenging to meet expectations.

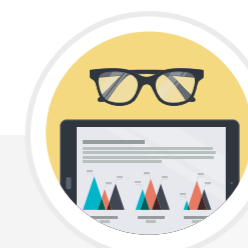

WAY FORWARD

Chay Ya Nepal will strive to collaborate with local government on implementation of the project to complete the project on time and eradicate any constraints emerging during project implementation. The local level governments, Rural Municipalities, or Municipalities play a significant role in granting authority to implement, monitor project activities and provide necessary feedback for any ongoing projects within the community. The proper coordination with local governments of project area, will be enhanced to reduce any delays and accelerate project activities. The organization will develop strong mandates in choosing right local partner organizations, who could execute project activities, mitigate, resolve any risks and constraints. Further, effective monitoring and evaluation of local partner during implementation of project activities will be pursued. The fewer number of staff during project load will be resolved by adding more human resources to execute the project, followed by capacity development of staff will be considered to increase the staff skill levels, which will be beneficial for project implementation. In 2019, the new projects on Municipal Solid Waste Management in Palungtar Municipality, Gorkha and WASH projects from UNICEF in Karnali province is being implemented considering lessons learned from the past years experiences, analysing risks associated with these projects and completing projects within stipulated timeline. Chay Ya Nepal further will coordinate and build strong organization bond with all the donor agencies which are helping Chay Ya Nepal till date and years to come.

LESSIONS LEARNED

Need for more frequent orientation and feedback to staff is required

Project outcome may take time to become visible

Remote project sites lead to changing project time and budget.

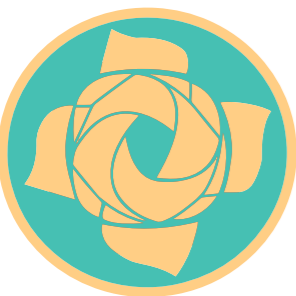

Effective work planning brings quality results.

Effective stakeholders communication optimizes program operation.
